

## SPEED UP WORK OF LOAN DRIVE

Committees Report Subscriptions of Over Two Million.  
Another Week's Campaign.

### LIBERTY LOAN TOTALS \$2,504,900 TO DATE

There will be general meeting of the liberty loan organization again until Tuesday, April 23. The salesmen are instructed to report daily until that time to W. M. Elliott, general chairman. Totals up to date are \$2,504,900.

The third liberty loan drive committee met Thursday evening at the Hotel Patten, at which time the salesmen turned in their reports for Thursday's work. The total amount for the day was reported as \$573,106, bringing the grand total up to \$2,504,900, making it approximately two and a half million for the two and a half days the teams have been at work in Chattanooga.

Mercer Reynolds' committee reported a total of \$263,559 for the day's work and R. P. Purse's committee reported \$309,550.

The committees will finish up their territory the remainder of this week and next week.

On Tuesday, April 23, there will be held another general meeting at the Hotel Patten at 12 o'clock. In the meantime W. M. Elliott, the general chairman, and Paul J. Kruehl, vice-chairman, will go over the subscriptions and classify them and revise the list.

The reports from the women's division and the country districts will be gone over also by Mr. Elliott and Mr. Kruehl and those who have not made a liberal subscription to the third liberty loan drive will be given an opportunity of doing so after Tuesday, April 23.

Joe Clift, chairman of the county districts, stated Thursday that approximately \$100,000 had been subscribed from the country districts.

Some of the reports that were made by the different committees Thursday night at the meeting showed how the working class of people are co-operating. The Mascot Store company employees subscribed about \$5,000, every employee in the factory having purchased a bond.

Another report came from the Columbian Iron works, where 90 per cent of the employees bought bonds, amounting to a total of \$5,000.

The employees of the Wheeland Machine company purchased \$5,000 worth of bonds and the employees of the Manhattan restaurant bought something like \$5,000 worth.

Reports from the two sales divisions for Thursday are as follows:

Mercer Reynolds, general chairman, and P. J. Kruehl, vice-chairman, Committee No. 1, R. C. Jones, chairman; 22 calls, 20 subscriptions, \$6,200.

Committee No. 2, Judge M. M. Allison, chairman; 106 calls, 96 subscriptions, \$35,200.

Committee No. 3, B. E. Loveman, chairman; 20 calls, 14 subscriptions, \$13,000.

Committee No. 3, James F. Finlay, chairman; 55 calls, 26 subscriptions, \$1,500.

Committee No. 4, M. F. Temple, chairman; 211 calls, 102 subscriptions, \$10,650.

Committee No. 5, C. H. Huston, chairman; 32 calls, 20 subscriptions, \$17,100.

Committee No. 6, J. Read Voigt, chairman; 135 calls, 111 subscriptions, \$56,700.

Committee No. 9, R. H. Hart, chairman; 53 calls, 43 subscriptions, \$15,900.

Committee No. 10, T. R. Durham, chairman; 200 calls, 123 subscriptions, \$9,500.

Committee No. 11, F. E. Mahoney, chairman; 295 calls, 187 subscriptions, \$12,200.

Committee No. 12, C. H. Willingham, chairman; 35 calls, 29 subscriptions, \$1,000.

Special committee, S. R. Read, chairman; 25 calls, 20 subscriptions, \$69,100.

Special committee, J. T. Lupton, chairman; \$23,050.

Total, \$309,550.

There has been great rivalry between the two sales divisions headed by Mr. Purse and Mr. Reynolds. Each division is putting forth its every effort, endeavoring to sell the largest amount of bonds. At present Mr. Purse's division is in the lead. However, Mr. Reynolds says that his committee has something up its sleeve and is going to make a hot race. At present the division of which Mr. Purse is chairman has sold a total of \$1,200,000 worth of bonds and Mr. Reynolds' committee has sold a total of \$225,000.

Mrs. Mary Giles Howard, of the women's division, stated Friday that while no definite figures could as yet be given out regarding the number of bonds the women have sold, \$50,000 would be a fair estimate of the total. The women are hard at work and are bringing in some good results.

Lieut. Rex C. Merrick, of the Canadian army, left Friday to speak at Morrison. He expects to address a meeting at Manchester Saturday and will go from there to Atlanta, where he will talk Sunday and Monday, returning to Chattanooga Tuesday morning, and will leave the same afternoon for Jasper to address a meeting there.

Hon. S. J. McAllester and C. W. Lusk, together with Lieut. Charles A. Scully and A. H. Crockett, of Camp Forrest, are speaking at liberty loan meetings which are being held in East Tennessee.

ADS EMBELLISHED WITH  
LIBERTY BOND SLOGANS

Merchants Agree to Comply  
With Suggestion and Committee  
Furnishes the Slogans.

In accordance with a suggestion from the liberty loan committee, the retail merchants of Chattanooga will during the next few weeks carry liberty bond slogans at the top of their advertisements appearing in the newspapers of Chattanooga. A number of these slogans will be noted in the advertisements of a number of merchants whose ads appear in today's issue of The News. It is expected that the use of these slogans will greatly assist in furthering the sale of liberty bonds throughout Chattanooga and Hamilton county.

The slogans suggested by the committee, and which appear below, are not only original, but say a whole lot in a few words. The sayings and slogans are arranged so as to express patriotism as well as the value of liberty bonds from an investment standpoint. The miscellaneous slogans, some of which have already become popular, are also printed for the use of those concerns and individuals who desire to use them in their advertisements.

**CHILD LABOR LAW UNDER  
ATTACK FROM CAROLINA**

Washington, April 12.—Constitutionality of the child labor law is attacked in a brief filed today in the supreme court in connection with proceedings appealed by the government from North Carolina, where the act recently was held to be invalid. The statute, which prohibits interstate shipments of articles produced in factories employing children under 14 years old, is declared to be "a perversion of the powers of congress," discriminatory and an interference with the police powers of a state. Arguments in the case will be heard next week.

**FIRST CARGO OF CANADIAN  
FISH LANDS AT BOSTON**

Boston, April 12.—The first cargo of 33,000 pounds of Canadian fish to be landed here free of duty under the new reciprocity agreement, recently signed by Secretary Redfield and Chief Justice Hazen, of New Brunswick, arrived yesterday.

**FORMER MAYOR DIES**  
Philadelphia's Loyal German—  
Born Official Is Dead.

Philadelphia, April 12.—Rudolph Blankenburg, elected mayor of this city on the reform ticket a few years ago in a memorable political battle, died today at his home in Germantown, a suburb. He was 75 years old last February.

Born near Hanover, Germany, he came to this country when he was 22 years old, and became intensely American. Since the declaration of war against Germany, Mr. Blankenburg had appeared frequently in public in advocacy of everything that America stands for.

**GERMANY BUILDS  
UNDERGROUND HANGARS**

Amsterdam, Feb. 28.—(Correspondent of the Associated Press.) The German army is now constructing underground hangars for its airplanes as protection against English bombing raids, says the Echo Belge. At one of the principal Belgian aerodromes hangars of this type capable of housing twelve machines have already been completed by the use of war-prisoner labor.

The hangars are of great depth and are protected overhead by a thick roof of concrete and earth. The machines are underground and emerge by a long runway in full flight. In returning they alight on the inclined plane, down which the machines run easily to their shelters.

## CHATTANOOGA LAWYER ENLISTS IN SERVICE

John P. Fort Will Enter Mechanical School Which  
Opens at U. T. Monday.

John P. Fort, one of Chattanooga's best known young lawyers, has enlisted in the special branch of army service known as mechanical department, a school for which has been authorized at the University of Tennessee and which opens next Monday and is taking his physical examination this afternoon.

On completing their course students will serve as motorcycle couriers and otherwise. Mr. Fort will likely be at headquarters.

Mr. Fort has turned his law practice over to Sam McAllester and Frederick Giddings succeeded Mr. Fort as president of the Fort Coal and Land company.

The special instruction will be given under the general supervision of Dean Chas. E. Ferris, and assisted by Prof. W. R. Woolrich, assistant mechanical designer, and Prof. B. L. Thomas, instructor in woodworking, shop and foundry work. The soldiers will be in charge of Maj. W. C. Christie, as commanding officer.

A call for crippled gasoline motors and automobile trucks has been issued by the faculty as a basis for the present course of instruction. Although the contract of the University of Tennessee with the government only calls for the training of 100 soldiers, Prof. Chas. E. Perkins, of the engineering faculty, informed the correspondent that there is a possibility of 600 being trained later. The other men whom Perkins believes will be sent later by the government probably will be given instruction in electrical work.

The instructions to soldiers starts at the university next week, announces President Brown Ayres. There will be an instructor for each ten students, although the government contract only calls for an instructor to each twenty students. Members of the University of Tennessee faculty have been assigned to the work. They will be assisted by several of the most advanced students, especially those who are skilled in any of the particular lines. Outsiders will also be called in as special instructors.

Dr. Ayres states that the course of study, which was prepared by the war department, is expected to prepare both officers and enlisted men so that they can meet any emergency, such as replacing a part of an ambulance, or "kitchenette," which might be torn away by a shell. The men are expected to be able to make almost any kind of repairs on an automobile, from the woodwork and ordinary blacksmithing to the most delicate engine work.

The sixty enlisted men will be assigned to the building formerly occupied by the Fulton Manufacturing company, shower baths and toilets having been installed in the factory. The forty officers will stay at Reese hall on the "hill."
